

NGBAP1319A APU STAND and CONTAINER

For GTC131-9A (A320) APUs

The mechanic-friendly 131-9A APU Transportation Stand is meticulously designed to provide optimal support and safety during APU handling and transportation. The Shock Mounted APU Stand consists of a steel base that is bolted to the floor of the APU Container. The Inner APU Cradle is also of steel construction with stainless steel and removable APU attachment points.

The APU container includes foldable doors and is crafted from 100 % recyclable material. It is stackable, treated for UV resistance, and is exceptionally durable with an approximate 10-year life span.

Configuration	Length (in/cm)	Width (in/cm)	Height (in/cm)	Empty (lb/kg)
NGBAP1319A	72.9 (1785)	49.1 (1247)	52.4 (1331)	550 / 249
NGBAP1319B	72.9 (1785)	49.1 (1247)	52.4 (1331)	550 / 249
